APPENDIX 3

PROCEDURE IN EVENT OF DOUBTFUL BOWLING ACTION

1 INTRODUCTION

Law 24 states in part as follows-

Law 24.2 Fair delivery – the arm

For a delivery to be fair in respect of the arm the ball must not be thrown. See 3 below.

(a) If, in the opinion of either umpire, the ball has been thrown, he shall:

(i) The umpires together shall report the occurrence as soon as possible to the Association Executive of the FSCCA, the fielding side *Captain* and any Governing Body responsible for the match, who shall take such action as is considered appropriate against the captain and bowler concerned.

(ii) *If in the event of no appointed Association umpires, it is the responsibility of the 2 Captains. If one Captain believes a player has a doubtful bowling action, they must inform the opposing Captain of their thoughts and report the issue to the Association Executive after the match. They must not make a big scene about it, just a quiet discussion with the opposing Captain.*

Law 24.3 Definition of fair delivery – the arm

A ball is fairly delivered in respect of the arm if, once the bowler's arm has reached the level of the shoulder in the delivery swing, the elbow joint is not straightened partially or completely from that point until the ball has left the hand. This definition shall not debar a bowler from flexing or rotating the wrist in the delivery swing.

The International Cricket Council and Cricket Australia have procedures relating to the above Law's application. It is appropriate that the Association also develops, promotes and applies a procedure for application in its own competitions. Such a procedure should be in the best interests of both the player, and the competition as a whole.

No player will be allowed to 'blatantly' throw a ball during bowling, 'baseball' style without attempting to bowl the ball correctly. The responsibility lies solely with the Captain or Coach (in the case of a junior cricketer) to ensure that the player attempts to 'bowl' the ball.

An Illegal Bowling Action is where a player is throwing rather than bowling the ball. This is defined by the ICC as being where the players elbow extends by an amount of more than 15 degrees between their arm reaching the horizontal and the ball being released. Match Officials in international cricket use the naked eye and their cricketing experience to decide whether

they believe a player may be using an Illegal Bowling Action and, if so, they will submit a report. (Taken from the ICC Rules and Regulations website)
